

Media Alert: Designers Will Find Tons of Valuable Demos and Solutions at Flash Memory Summit

SANTA CLARA, CA –August 8, 2016 – Lots of stuff for storage designers to enjoy, including demonstrations, teardowns, and an entire NVMe Solutions Lab, is coming to Flash Memory Summit on August 9-11. Open to all for free – just sign up on the website at www.flashmemorysummit.com. iFixit offers teardowns of both Apple and Samsung mobile devices. Top companies including Micron and HP demo the latest equipment for high-speed media/entertainment applications. The NVMe Solutions Lab showcases hyperconverged systems, all-flash arrays, servers, SSDs, controllers, software, and analyzers from key vendors such as Broadcom, HPE, Huawei, Intel, Mellanox, Red Hat, Samsung, Seagate, Silicon Motion, Supermicro, QLogic, WD, and Teledyne LeCroy.

“Storage designers and users can see new products in action, illustrating the benefits of amazing technology advances,” declares Tom Coughlin, FMS Conference Chairperson. “20 product companies target the emerging NVMe standard that brings the speed of PCIe to solid state storage,” he adds.

FMS blows the lid off the latest technology trends, showcases the most newsworthy products, and offers the broadest coverage of a rapidly expanding market. The August 9-11 event at the Santa Clara Convention Center also features free keynotes by top speakers from Facebook, Micron, Samsung, SanDisk, Toshiba, Marvell, SK Hynix, Huawei, Seagate, Microsemi, EMC, Nimbus Data, Crossbar, and Mangstor. In 2015, FMS drew over 5,000 registrants and 100 exhibitors. The conference highlights the latest technology trends, such as the groundswell in the adoption of NVMe. Other sessions spotlight the most current market research, next generation memory solutions like MRAM and RRAM, and the always enlightening VC Forum.

About Flash Memory Summit

Flash Memory Summit, produced by Conference ConCepts, showcases the mainstream applications, key technologies, and leading vendors that are driving the multi-billion dollar non-volatile memory and SSD markets. FMS is now the world’s largest event featuring the trends, innovations, and influencers driving the adoption of flash memory in demanding enterprise storage applications, as well as in smartphones, tablets, and mobile and embedded systems.
